# Access the Share Folder

1 [mint2.mcmet.com](http://mint2.mcmet.com) or 172.16.100.31

2 Access the 'hdu\_data' folder

# Access the Share Folder

3

Id: hdu2  
pw: han12345

4

Go to Miniconda Folder  
and  
Jupyter Folder

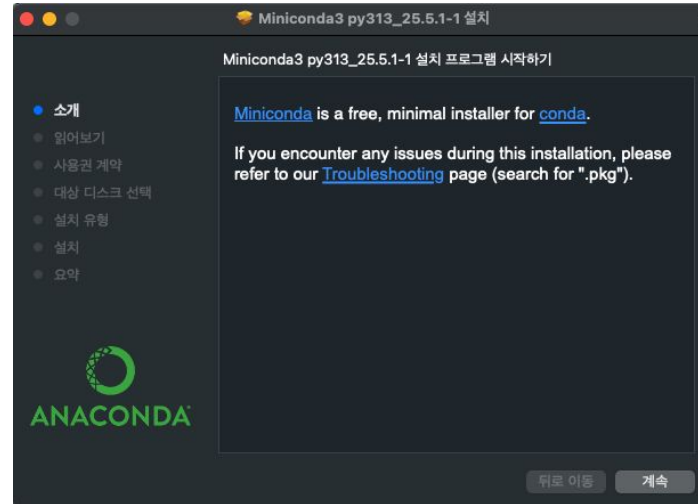

5

Copy the package files according to  
your laptop's operating system.

If your laptop is window os, you have  
to copy 'win' folder.

# Program Environment Setting

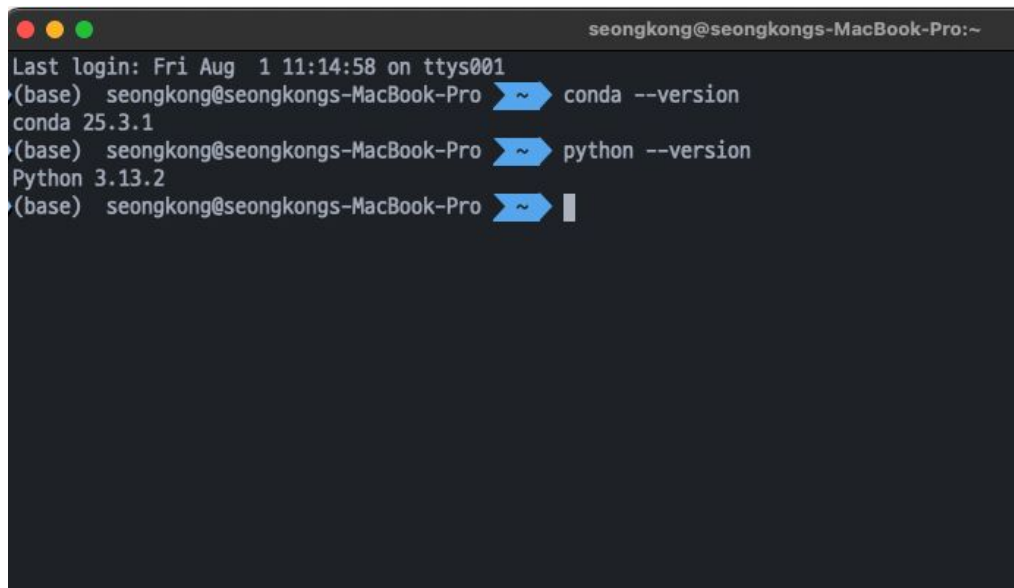

- 6 Run to Copy File in miniconda/win64/Miniconda3-latest-Windows-x86\_64.exe

```
(base) LSK12723:~ chunj$ conda --version
conda 4.12.0
(base) LSK12723:~ chunj$ python --version
Python 3.9.12
(base) LSK12723:~ chunj$
```

Check if **(base)** appears in cmd or PowerShell.

# Check the Conda installation

A terminal window with a dark background and light text. The window title is 'seongkong@seongkongs-MacBook-Pro:~'. The output shows the last login time and the results of running 'conda --version' and 'python --version'.

```
seongkong@seongkongs-MacBook-Pro:~  
Last login: Fri Aug 1 11:14:58 on ttys001  
(base) seongkong@seongkongs-MacBook-Pro ~$ conda --version  
conda 25.3.1  
(base) seongkong@seongkongs-MacBook-Pro ~$ python --version  
Python 3.13.2  
(base) seongkong@seongkongs-MacBook-Pro ~$
```

The version information that appears may vary slightly.

As of August 1, 2025, the latest versions are:  
Python: v3.13.2  
Conda: v25.3.1

- 8 Run the following commands to check if Conda and Python are properly installed

```
conda --version  
python --version
```

(\*) If there are any open Terminal apps, close them all. Then, open a **new Terminal app** and enter the commands:

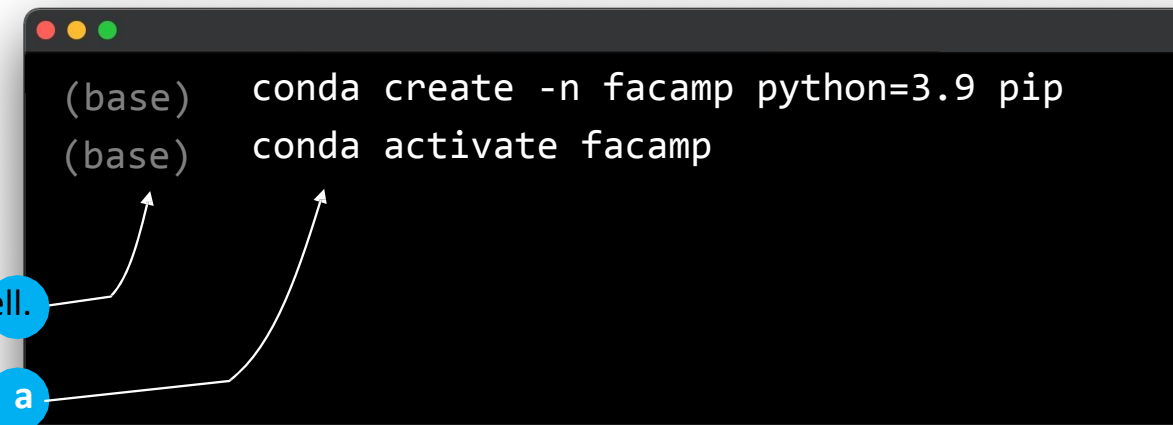

# Make Virtual Environment

- 2 Run the following commands in Terminal App(Mac) or Anaconda Prompt(Windows)

```
conda create -n facamp python=3.9 pip  
conda activate facamp
```

Check if (base) appears in cmd or Powershell.

A terminal window with a dark background and light gray text. It shows two lines of text: "(base)" on the first line and "conda create -n facamp python=3.9 pip" on the second line. Below these, it shows "(base)" on the third line and "conda activate facamp" on the fourth line. A blue circle with the letter 'a' is positioned to the left of the terminal window, with an arrow pointing to the first "(base)". Another arrow points from the text "Check if (base) appears in cmd or Powershell." to the same "(base)".

```
(base) conda create -n facamp python=3.9 pip  
(base) conda activate facamp
```

and run the command

# Jupyter & Python Libraries Setting

Jaeyoung Chun

# Jupyter & Python Libraries Setting

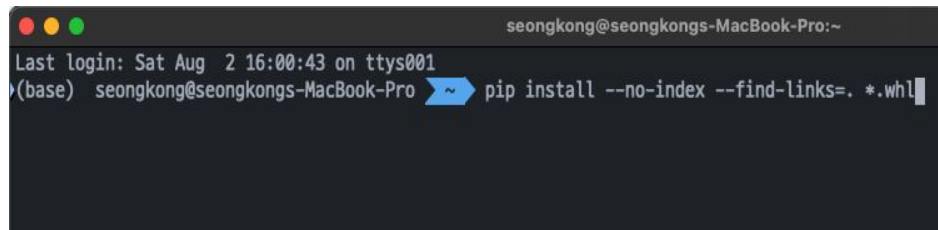

- 1 Turn on the 'cmd' or 'powershell' and run the following command:  
  
`conda activate facamp`
- 2 In **cmd** or **PowerShell**, navigate to the folder where you copied jupyter/win-64

ex. if you copy in the Downloads Folder:

```
bash
```

```
cd C:\Users\YourName\Downloads\jupyter\win-64
```

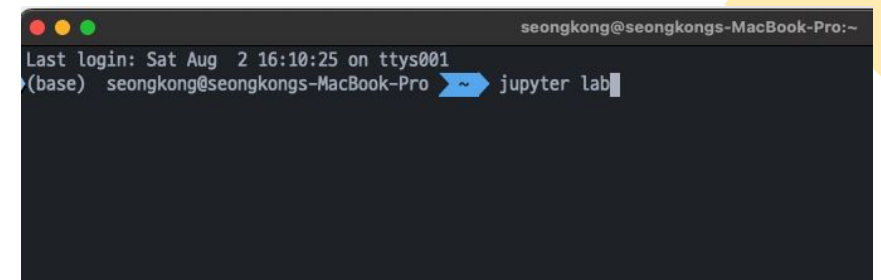

# Jupyter & Python Libraries Setting

A terminal window with a dark background and light text. The title bar reads 'seongkong@seongkongs-MacBook-Pro:~'. The prompt shows 'Last login: Sat Aug 2 16:00:43 on ttys001'. The user is in a virtual environment '(base)'. The command 'pip install --no-index --find-links=. \*.whl' is entered and highlighted with a blue arrow.

```
seongkong@seongkongs-MacBook-Pro:~  
Last login: Sat Aug 2 16:00:43 on ttys001  
(base) seongkong@seongkongs-MacBook-Pro ~$ pip install --no-index --find-links=. *.whl
```

- 3 Run the following commands to install jupyter and Python libraries

`pip install --no-index --find-links=. *.whl`

A terminal window with a dark background and light text. The title bar reads 'seongkong@seongkongs-MacBook-Pro:~'. The prompt shows 'Last login: Sat Aug 2 16:10:25 on ttys001'. The user is in a virtual environment '(base)'. The command 'jupyter lab' is entered and highlighted with a blue arrow.

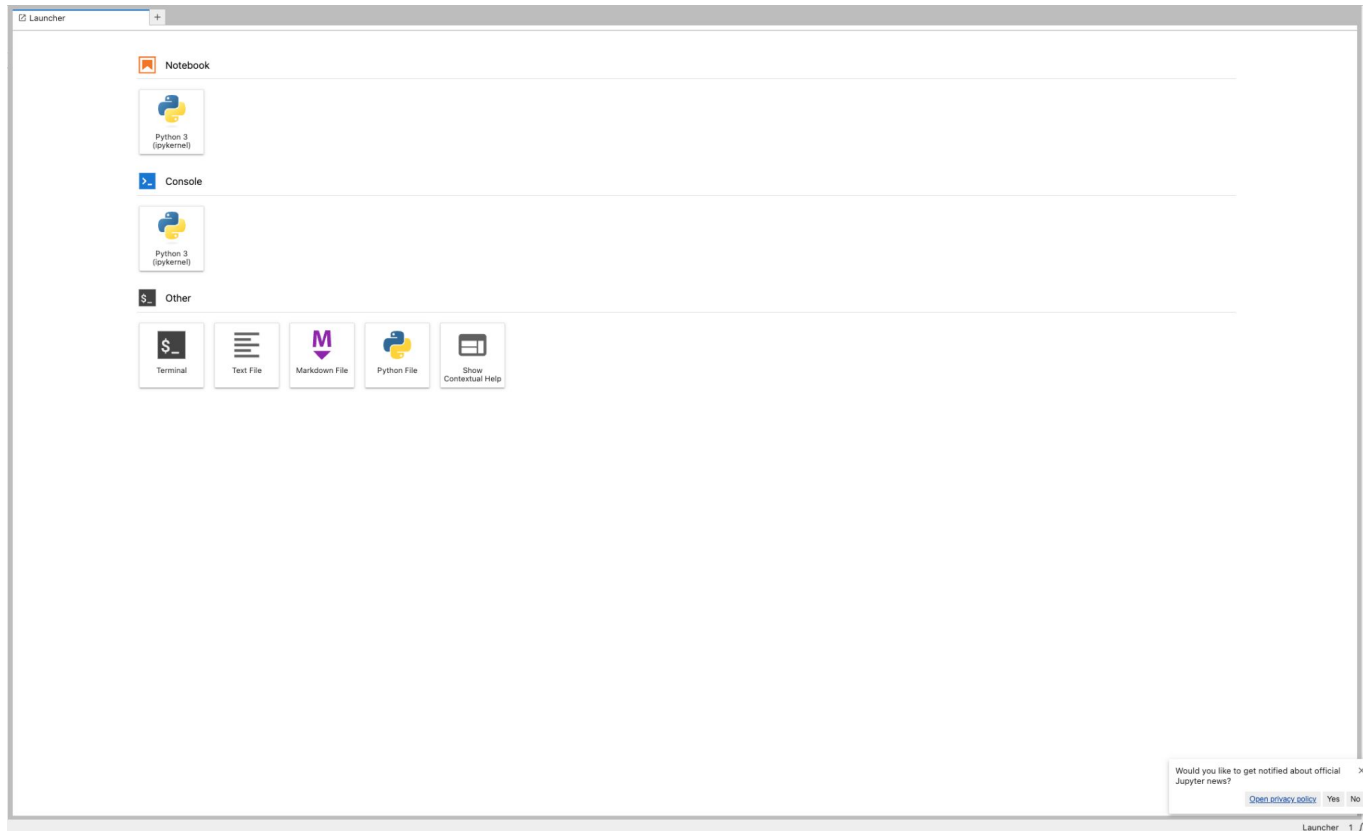

```
seongkong@seongkongs-MacBook-Pro:~  
Last login: Sat Aug 2 16:10:25 on ttys001  
(base) seongkong@seongkongs-MacBook-Pro ~$ jupyter lab
```

5

Once the installation is complete, run the following command:

`jupyter lab`

# Jupyter & Python Libraries Setting

6 If you see a screen like the one below, it means the setup was successful :)

THANK YOU!
